POD Light®

PROFESSIONAL **RECHARGEABLE** WORKLIGHT

Everyone Needs A POD Light!

The **POD Light** is the next generation in portable lighting. It is a flashlight, a worklight, and a flashing safety strobe light, all packed into one rechargeable, weatherproof housing.

LED POD technology provides extended cordless operation.

Built-in extras and smart design make this a must-have for the home, auto and professional workplace.

Technical Specifications

Innovative LED POD Array

- Provides strong light where you're working and soft light to surrounding areas
- 18,000 MCd PODs comparable to 75 watt bulb
- Unlike conventional bulbs, they won't blow when dropped
- 100,000 hour life expectancy
- Super low power use

Multi-function

- Traditional work light
- Extra bright flashlight
- Flashing hazard alert strobe
- One-switch function control

Rechargeable

- Two chargers included:
 - 12 volt auto charger and 110 volt wall charger
- Extended lighting between recharges:
 - 8 hours as worklight
 - 10 hours as flashlight
 - 24 hours as flashing strobe
- Microprocessor controlled charging protects batteries
- Will operate with power cord if necessary
- Nickel metal hydride (NiMH) batteries, no recharge memory like NiCads

Durable Construction

- Heavy-duty construction with oversized grip
- Impact-resistant rubber housing
- Shock-proof handle
- Water resistant, as well as anti freeze and oil
- Strong clear polycarbonate lens

Smart Design

- Operates in any weather: heat or cold, rain or shine
- Cool to touch: won't burn you and won't melt plastic
- Adjustable, locking magnetic collar holds light where needed
- 360° rotating hook: rubber mounted for shock absorption

Optional Desktop Charger

- The optional desktop charger is a perfect complement to the POD Light.

2 year limited warranty

Light Up Sales with POD Light Display!

POD Light comes in an attractive full-color hanging package or use the free-standing display for point-of-purchase sales. Display has removable/changeable copy statements for added interest.

POD Light will generate sales in a wide variety of marketplaces including, hardware, automotive repair, auto parts, department and small retail. A must-have product for both professional and consumer use, the POD Light *will* generate sales and profit.
