

ONE LIGHT, MANY JOBS.

Works when, and where, you do.

Strong magnetic holder on 360° collar gives you hands free convenience.

Introducing the PODLight. The professional, cordless, rechargeable, rugged, 3-in-1 LED, worklight, flashlight, & flashing safety strobe.

This WEATHERPROOF light is engineered to work anywhere and any time.

LED light pods WON'T BLOW when dropped thanks to its durable, heavy-duty rubber housing.

You get 8 hours of worklight or 12 hours of flashlight with each charge.

Rapid 12 volt car charger and 110 volt wall charger are included to keep your PODLight ready when you need it.

Light those hard to get at places.

LED 3IN1 POD Light[®]

PROFESSIONAL RECHARGEABLE 3-in-1 WORKLIGHT

The PODLight is a professional quality portable, rechargeable, LED light. It is valuable for any application where dropping a light is common. Tradesmen find it extremely useful when working in the dark where there is no power available. At work, in a vehicle, around the house, or for recreation, its durability and built-in extras make it beneficial for anyone who uses cordless portable lighting.

PACKAGING THAT SELLS

The PODLight's powerful packaging is designed to sell in a wide variety of markets. All four sides have a sales purpose. The photos and exciting graphics on the front draw attention, the left side sells consumers, the right side sells professionals, and the back provides details to entice even the most discriminating buyer.

A colorful, free-standing display is also available for point of purchase sales.

MANY MARKETS

The PODLight will generate excellent sales in a wide variety of markets including HVAC, public safety, utility, automotive, electrical, trucking, home repair, outdoor, convenience, building maintenance, and retail.

CORDLESS and RECHARGEABLE

- * Save money by recharging the batteries instead of replacing them!
- * 2 ways to recharge are included - 12 volt car charger and 110 volt wall charger.
- * Long lasting between recharges, 8 hr. as worklight, 12 hr. as flashlight, and over 48 hr. as emergency safety strobe.
- * Built-in indicator shows the recharge status.
- * Replaceable nickel metal hydride batteries are long lasting & have no recharge memory.
- * Operates with power cord if battery is dead.
- * Due to microprocessor controlled charging, it can be left plugged into a car cigarette lighter and it won't kill the car's battery. The microprocessor also extends the life of the PODLight by preventing accidental overcharge.

MULTI-FUNCTION

- * Worklight uses an innovative 26 LED pod array that provides strong light where you're working and softer light to surrounding areas.
- * Focused high intensity LED flashlight.
- * Emergency double flash safety strobe to attract attention in time of need.
- * One switch function control.

CONVENIENCE

- * Oversize hanging hook turns 360 degrees and is rubber mounted for durability.
- * Strong magnetic holder adjusts 360 degrees providing hands-free operation.

SMART DESIGN

- * 100,000 hour LED light pod life expectancy.
- * Super energy efficient, uses over 97% less energy than a 60 watt bulb.
- * Cool operation, won't burn you or melt plastic it comes in contact with.
- * Operates in any weather, heat or cold, rain or shine.
- * Stand-up charging base/storage pod included free.
- * Light weight reduces fatigue when hand held.

HEAVY DUTY

- * Strong clear polycarbonate lens, like eyeglasses.
- * Durable light pods won't blow when dropped.
- * Rugged, impact resistant rubber housing with oversized grip.

PROFESSIONALS Rely On The PODLight
