

Headlight Aiming Made Easy...

The SNIPER is a professional model optical headlight aimer designed for state inspection facilities, fleet maintenance operations, collision shops, and auto or truck repair businesses. Its superior design provides shop owners and technicians with these important advantages:

Model 5412
professional optical
headlight aimer

- **Unique base design** makes the SNIPER extremely portable and easy to move from bay to bay. **No floor track required.**
- **New alignment screen** compensates for the high mounted headlights found on pick-up trucks and sport utility vehicles.
- **Exclusive linear alignment system** quickly and accurately aligns the aimer to the vehicle.
- **No electronics**—means no batteries, no power cords, no costly software upgrades, no programming, no adapters and no breakdowns.
- **Accurately aims all headlights:**

Aerodynamic	Composite
Sealed beam	Foglamps
Euro style	Recessed
Contoured	Sport utility
- **Simple, fast operation**
- **Floor slope compensation** provides easy multi-bay use.
- **Rugged metal base, mast and aimer head** allow us to provide a **two-year warranty.**
- **Meets and exceeds the SAE standards J599 and J600** as required for **State Inspection Facilities.**
- **Low cost**

Designed for today, tomorrow and beyond!
